RENU PRASHANTH S N React Developer

• **Phone:** +91 8861836884

• **Email:** renuprashanth95@gmail.com

• Portfolio: Renu.github.io

Career Objective

Highly skilled React Developer with 3.6 years of experience in front-end development, seeking to contribute my technical expertise and innovative problem-solving skills to a dynamic organization. Committed to delivering high-quality, user-centric web applications that drive business success.

Technical Skills

• **Programming:** JavaScript (ES6+), HTML5, CSS3

• **Frameworks:** React.js, Redux

• Tools & Libraries: Babel, Bootstrap, Git, GitHub

• Methodologies: Agile, Scrum

• Others: RESTful APIs, Responsive Design, Node.js, MongoDB

Core Competencies

- **Front-End Development:** Proficient in React.js, HTML5, CSS3, JavaScript (ES6+), and Redux for building responsive and interactive web applications.
- **UI/UX Design:** Expertise in creating intuitive and accessible user interfaces with a focus on cross-browser compatibility and responsive design.
- **Version Control:** Strong experience with Git and GitHub for source code management and collaboration.
- **Agile Methodologies:** Extensive experience working in Agile and Scrum environments, with active participation in sprint planning, daily stand-ups, and retrospectives.
- **Tools & Technologies:** Hands-on experience with Babel, Bootstrap, RESTful APIs, and modern development environments like Visual Studio Code.
- **Backend Knowledge:** Basic understanding of Node.js and MongoDB for full-stack development.

Professional Experience

Client: Tech Mahindra, Bangalore Software Engineer | React.js Developer August 2023 – Present

• Project: Hospital Portal Development

• Description:

Developed a comprehensive web-based portal designed to streamline hospital operations by enabling clinicians to manage patient information and workflows. The portal facilitates tasks such as viewing clinical data, scheduling appointments, assigning caregivers, and generating patient reports, all within a responsive and intuitive interface.

• **Technologies:** React.js, HTML, CSS, JavaScript, Bootstrap.

• Responsibilities:

- Developed and maintained front-end features using React.js, ensuring the application is both user-friendly and efficient.
- o Implemented responsive design principles, ensuring the portal is accessible across various devices.
- Integrated dynamic JavaScript features to enhance user interaction and provide real-time updates.
- Collaborated closely with a team of 12 in an Agile setting, participating in sprint planning and retrospectives.

HCL Technologies, Bangalore Software Engineer | React.js Developer August 2021 – August 2023

• Project: Road Service Provider

• Description:

Played a key role in developing a web application aimed at managing and maintaining service providers for the automotive industry. The application supports end-to-end processes from provider registration to service delivery, encompassing various modules like repair management, accident management, insurance, and more.

• **Technologies:** React.js, HTML, CSS, JavaScript, Bootstrap

• Responsibilities:

- o Translated business requirements into scalable and reusable React components, optimizing the application's performance.
- Developed and validated forms using React.js, ensuring accurate data management and user experience.
- Ensured the application's responsiveness and compatibility across multiple devices and browsers.
- Contributed to the Agile development lifecycle, engaging in continuous improvement processes and collaboration.

Archane HR Services, Bangalore System Engineer Trainee August 2020 – December 2020

- Project: Event Management Web Application
- Description:

Contributed to the development of a web-based event management application that allows users to create and manage events, register attendees, and coordinate with speakers. The application is optimized for performance with features like on-scroll data loading and data export functionality.

- Technologies: HTML, CSS, JavaScript, Bootstrap
- Responsibilities:
 - Developed user interface components for event creation and management, ensuring a seamless user experience.
 - Implemented performance optimization techniques such as efficient data loading and integration with external APIs.
 - Worked closely with UI/UX designers to implement responsive design elements that improve user engagement.
 - Participated in Agile processes, contributing to team meetings and iterative development cycles.

Education

- Bachelor of Engineering (BE) in Mechanical Bahubali College of Engineering, VTU | 2015 – 2019
- **Pre-University (PU)**Govt PU College, Hassan | 2013 2015
- SSLC (10th)
 Ambika High School, Hassan | 2013
